

ICE ROAD CONSTRUCTION

A trusted name in ice road construction.

Our experienced team of Ice Road specialists knows what it takes to get the job done safely, on-time and on-budget. Across western Canada, Rebel Heart has built ice roads for a diverse range of projects such as pipelines, drilling rigs, transmissions lines, SAG-D, and providing access to remote northern camps. With dedicated Field Supervisors available to manage crews and equipment, Rebel Heart can be trusted to complete the job on time.

Our specialized fleet ensures your roads are built on-budget and on-time.

With a large fleet of water trucks of diverse sizes and specifications, we are able provide a cost-efficient service without sacrificing safety. In addition to our more conventional equipment, Rebel Heart has trucks equipped with **flotation tires**. The reduced ground pressure from our flotation equipment makes them the first trucks in – setting the stage for conventional units.

- ▶ Experience working under Alberta Temporary Diversion Licenses (TDL).
